

# Family Q&A

## Objective

To help your family understand how natural gas is used at home and by your family.

## Procedure

Ask your children the following questions. Discuss the answers and show them where natural gas is used in your home. This would also be a good opportunity to talk about natural gas safety in your home and your plan of action if you detect the rotten egg smell in your home.

## Discussion Questions

|   |  |
|---|--|
| How is our home heated?<br>A. Natural Gas<br>B. Electric<br>C. Propane<br>D. Wood Stove<br>E. Other   | What type of clothes dryer do we have?<br>A. Natural Gas<br>B. Electric<br>C. Other  |
